

## **How to Make a Glitter Tumbler with the Tack-It Method**

Give the Gift of Glitter

Let your creativity shine  
this holiday season with the

# TACK-IT METHOD!

[Aleenes.com](http://Aleenes.com)

Step 3:

Once you have a nice, tacky surface on your tumbler, it's time to sprinkle on all of that glittery goodness! After sprinkling on your glitter, use your fingers to press and smooth the glitter over your tumbler. The tacky surface will "absorb" the glitter, creating a smooth, sparkling finish that you can then seal with epoxy. Easy, less mess, and MORE GLITTER!

Step 4:

If glitter is all you're after, once you've applied the epoxy and allowed it to cure, your new [glitter tumbler](#) is ready to serve up your favorite beverages.

Step 5:

Looking to do something a little bit different with your glitter tumbler? Like glitter polka dots?! We have a tutorial for that too. See how you can get perfect glitter dots on your tumbler using the Tack-It Method and Aleene's Instant Tacky Glue Dots [here in this post](#).

Step 6:

Yes, you can even add decals to your glitter tumbler! Just a few extra easy steps you can find in this [Fall Glitter Tumbler tutorial](#). What glitter tumblers are you making using the Tack-It Method? Make sure to tag us on social @aleenesdiy and share with us! Cheers to letting your creativity shine!
