

## Easter Décor Idea: Bunny Door Wreath

Easy Easter bunny

# Door Wreath

with Aleene's® DIY Craft Super Glue

# Aleenes.com

in partnership with Craft Box Girls

Looking for Easter décor ideas? This adorable bunny door wreath from [Craft Box Girls](#) is so easy to put together with premade shapes and [Aleene's DIY Craft Super Glue](#). In just a few simple steps, you'll be ready to welcome spring – and guests – with a wreath that's blooming with creativity!

## Instructions:

### Step 1

The most challenging part of creating this Easter décor idea is picking out what paint colors you want to use. Softer, pastel shades are perfect for spring, but it's your project – have fun and add your own flair!

### Step 2

First paint all of the wood pieces in your chosen colors of acrylic paint. Let them dry completely before assembling your wreath.

### Step 3

Once your painted pieces are dry, first glue the “welcome” cutout to the plaque using the Craft Super Glue. Apply the glue to the backside and press in place on the center of the plaque.

### Step 4

Next glue your bunny cutout to the hoop base, adding the glue to any part of the back side of the bunny that will sit against the hoop.

#### Step 5

Glue the welcome sign onto the bunny cutout, then cut a strand of ribbon and tie it into a bow for adding some flair to this Easter décor idea! You can glue it to the ear, or even on the neck area to make a cute bowtie.

#### Step 6

To create a hanger for your door wreath, cut another strand of ribbon and loop it around the top of the hoop. Then tie a knot at the top for hanging.

**Step 7**

To finish your Easter bunny door wreath, trim the faux flowers to fit along the welcome sign, then decide how you would like to arrange them. Once you have that figured out, add glue to the stem of each and press onto the back of the welcome sign. Let dry completely.

**Step 8**

Now it's time to hang your bunny wreath on your front door to welcome and guests with spring cheer!

Step 9

This is one Easter décor idea we plan on bringing back every year. It's just too cute not to! What spring crafts are you making with Aleene's DIY Craft Super Glue? (It's so versatile, you can use it for ALL of them!) Tag us on social @aleenesdiy and share with us!
